

Motion

Representative Assembly
Meeting 2
2019-05-18 - 2019-05-19

Buying a new house for the student union

Background

The Social Sciences Student Union is currently renting the house we call Samvetet. Samvetet is a very nice house but it has many flaws. The kitchen is too small to cook comfortably in for a large number of people and the offices are small. There is also not enough conference space for efficient meetings.

Suggestion

Samvetet no longer meets the needs of the organisation and we need to move into a better house. We should therefore buy a house in the city centre where social science students could gather and where the organisation can operate. The house needs to have a big industrial kitchen as well as cosy offices and a big hall for sittings and parties.

My cousin has a house that fits all the criteria and he would sell it to us for the nice sum of 9.000.000 SEK. It is situated on Vägenbacken 3b. I think that the Social Sciences Student Union should buy it.

Consequences

If the Social Sciences Student Union would buy this house we would be able to expand our organisation a lot and also have more parties. We could have even more meetings and this would be very beneficial to our organisation. We would have to take a loan to be able to buy the house and raise the membership fee to 500 SEK per semester instead of 70 SEK per semester in order to pay off the loan.

Motion

I, Stina Student, move that the Representative Assembly decides:
to set the membership fee to 500 SEK per semester
to buy the house at Vågenbacken 3b, Lund, for 9.000.000 SEK
